The Election Returns

Cover every State and Territory of the Union, include as well the vote on President as on Representatives in Congress in each, and as to both compare these votes with those of 1884. The partisan complexion of every Legislature in the Union is given, as are the votes on the election of all State and Territorial officers chosen, and on constitutional amendments submitted to popular vote. In NEW-JERSEY and NEW-YORK, the vote on Assemblymen is, as usual, given by districts; and in CONNECTICUT, NEW-JERSEY and NEW-YORK the popular vote on President is given as well by wards and towns as by cities and counties. To the general tables, which give the results in various forms, is added an instructive analysis of the Presidential elections of 1876, 1880, 1884 and 1888, showing the percentage of votes polled at each election by each of the parties in each geographical division of the country. The "Political Miscellany" for 1888 records the important political facts developed in each State during the year.

The incumbent shall visit the schools where Indians are taught, in whole or in part by appropriations from the United States Treasury, and report defects, changes needed, etc. He shall, subject to the approval of the Secretary of the Interior, employ and discharge superintendents, teachers and any other person connected with schools wholly supported by the Government, and with like approval make such rules and regulations for the conduct of such schools as in his judgment their good may require.—(Approved June 29, 1888.

LABOR ARBITRATION.

Chap. 1,063.—That whenever differences or controversies arise between railroad or other transportation companies engaged in the transportation of property or passengers between two or more States, between a Territory and State, within the Territories, or the District of Columbia, and the employes of said railroad companies, which differences or controversies may hinder, impede, obstruct, interrupt or affect such transportation of property or passengers, if, upon the written proposition of either party to the controversy to submit their differences to arbitration the other party shall accept the proposition, then and in such event the railroad company is hereby authorized to select and appoint one person, and such employe or employes, as the case may be, to select and appoint another person, and the two persons thus selected and appointed to select a third person, all three of whom shall be citizens of the United States and wholly impartial and disinterested in respect to such differences or controversies; and the three persons thus selected and appointed shall be, and they are hereby, created and constituted a board of arbitration, with the duties, powers and privileges hereinafter set forth.

That it shall be the duty of said board of arbitration, immediately upon their selection, to organize at the nearest practicable point to the place or the origin of the difficulty or controversy, and to hear and determine the matters of difference which may be submitted to them in writing by all the parties, giving them full opportunity to be heard on oath, in person and by witnesses, and also granting them the right to be represented by counsel; and after concluding its investigation said board shall publicly announce its decision, which, with the findings of fact upon which it is based, shall be reduced to writing and signed by the arbitrators concurring therein, and together with the testimony taken in the case, shall be filed with the Commissioner of Labor of the United States, who shall make such decision public as soon as the same shall have been received by him.

It shall be the right of any employes engaged in the controversy to appoint

by designation in writing, one or more persons to act for them in the selection of an arbitrator to represent them upon the board of arbitration.

The President may select two commissioners, one of whom at least shall be a resident of the State or Territory in which the controversy arises, who, together with the Commissioner of Labor, shall constitute a temporary commission for the purpose of examining the causes of the controversy, the conditions accompanying, and the best means for adjusting it; the result of which examination shall be immediately reported to the President and Congress, and on the rendering of such report the services of the two commissioners shall cease. The services of the commission, to be ordered at the time by the President and constituted as herein provided, may be tendered by the President for the purpose of settling a controversy such as contemplated, either upon his own motion, or upon the application of one of the parties to the controversy, or upon the application of the executive of a State.

That upon the direction of the President, as hereinbefore provided, the commission shall visit the locality of the pending dispute, and shall make careful inquiry into the cause thereof, hear all persons interested therein who may come before it, advise the respective parties what, if anything, ought to be done or submitted to by either or both to adjust such dispute, and make a written decision thereof. This decision shall at once be made public, shall be recorded upon proper books of record, to be kept in the office of the Commissioner of Labor, who shall cause a copy thereof to be filed with the Secretary of the State or Territory, or States or Territories, in which the controversy exists.

All fees, expenses, and compensation of this commission shall be paid by the United States. The pay of each member of the Tribunal of Arbitration shall be ten dollars a day for the time actually employed.—(Approved October 1, 1888.

CHAP. 389.—Establishes a Department of Labor, under the charge of a Commissioner of Labor, at a salary of $5,000 a year. His duty shall be to acquire and diffuse among the people of the United States useful information on subjects connected with labor, in the most general and comprehensive sense of that word, and especially upon its relation to capital, the hours of labor, the earnings of laboring men and women, and the means of promoting their material, social, intellectual and moral prosperity. The Commissioner is specially charged to ascertain, at as early a date as possible, and whenever industrial changes shall make it essential, the cost of producing articles at the time dutiable in the United States, in leading countries where such articles are produced, by fully-specified units of production, and under a classification showing the different elements of cost, or approximate cost, of such articles of production, including the wages paid in such industries per day, week, month, or year, or by the piece; and hours employed per day; and the profits of the manufacturers and producers of such articles; and the comparative cost of living, and the kind of living. "It shall be the duty of the Commissioner also to ascertain and report as to the effect of the customs laws, and the effect thereon of the state of the currency, in the United States, on the agricultural industry, especially as to its effect on mortgage indebtedness of farmers;" and what articles are controlled by trusts, or other combinations of capital, business operations, or labor, and what effect said trusts, or other combinations of capital, business operations, or labor have on productions and prices. He shall establish a system of reports by which, at intervals of not less than two years, he can report the general condition, so far as production is concerned, of the leading industries of the country. The Commissioner of Labor is also specially charged to investigate the causes of, and facts relating to, all controversies and disputes between employers and employes as they may occur, and which may tend to interfere with the welfare of the people of the different States, and report thereon to Congress. The Commissioner of Labor shall also obtain such information upon the various subjects committed to him as he may deem desirable from different foreign nations, and what, if any, convict-made goods are imported into this country, and if so, from whence. —(Approved June 13, 1888.

The first two cruisers to have a maximum speed of at least nineteen knots per hour, the third a maximum speed of at least twenty knots per hour. Chap. 308.—That hereafter eight hours shall constitute a day's work for letter-carriers in cities or postal districts connected therewith, for which they shall receive the same pay as is now paid as for a day's work of a greater number of hours. If any letter-carrier is employed a greater number of hours per day than eight he shall be paid extra for the same in proportion to the salary now fixed by law.—(Approved May 24, 1888.

Chap. 702.—That the postage on seeds, cuttings, bulbs, roots, ferns and plants shall be charged at the rate of one cent for each two ounces or fraction thereof, subject in all respects to the existing law. —(Approved July 24, 1888.

THE NATIONAL PLATFORMS OF 1888.

THE REPUBLICAN—Chicago, June 21.

The Republicans of the United States, assembled by their delegates in National Convention, pause on the threshold of their proceedings to honor the memory of their first great leader, the immortal champion of liberty and the rights of the people—Abraham Lincoln, and to cover also with leaves of imperishable remembrance and gratitude the heroic names of our later leaders who have been more recently called away from our councils—Grant, Garfield, Arthur, Logan, Conkling. May their memories be faithfully cherished!

We also recall with our greetings and with prayer for his recovery the name of one of our living heroes, whose memory will be treasured in the history both of Republicans and of the Republic—the name of that noble soldier and favorite child of victory, Philip H. Sheridan. In the spirit of those great leaders, and of our own devotion to human liberty, and with that hostility to all forms of despotism and oppression which is the fundamental idea of the Republican party, we send fraternal congratulations to our fellow-Americans of Brazil upon their great act of emancipation, which completed the abolition of slavery throughout the two American continents.

We earnestly hope that we may soon congratulate our fellow-citizens of Irish birth upon the peaceful recovery of Home Rule for Ireland.

We reaffirm our unswerving devotion to the National Constitution and to the indissoluble union of the States; to the autonomy reserved to the States under the Constitution; to the personal rights and liberties of citizens in all the States and Territories in the Union; and especially to the supreme and sovereign right of every lawful citizen, rich or poor, native or foreign born, white or black, to cast one free ballot in public elections, and to have that ballot duly counted. We hold the free and honest popular ballot and the just and equal representation of all the people to be the foundation of our Republican Government, and demand effective legislation to secure the integrity and purity of elections, which are the fountains of all public authority. We charge that the present Administration and the Democratic majority in Congress owe their existence to the suppression of the ballot by a criminal nullification of the Constitution and laws of the United States.

We are uncompromisingly in favor of the American system of Protection; we protest against its destruction, as proposed by the President and his party. They serve the interests of Europe; we will support the interests of America. We accept the issue, and confidently appeal to the people for their judgment. The protective system must be maintained. Its abandonment has always been followed by general disaster to all interests, except those of the usurer and the sheriff. We denounce the Mills bill as destructive to the general business, the labor and the farming interests of the country, and we heartily indorse the consistent and patriotic action of the Republican Representatives in Congress in opposing its passage.

We condemn the proposition of the Democratic party to place wool on the free list, and we insist that the duties thereon shall be adjusted and maintained so as to furnish full and adequate protection to that industry throughout the United States.

The Republican party would effect all needed reduction of the National revenue by repealing the taxes upon tobacco, which are an annoyance and burden to agriculture, and the tax upon spirits used in the arts and for mechanical purposes, and by such revision of the tariff laws as will tend to check imports of such articles as are produced by our people, the production of which gives employment to our labor, and releases from import duties those articles of foreign production (except luxuries) the like of which cannot be produced at home. If there shall remain a larger revenue than is requisite for the wants of the Government, we favor the entire repeal of the internal revenue taxes, rather than the surrender of any part of our protective system, at the joint behest of the whiskey ring and the agents of foreign manufacturers.

We declare our hostility to the introduction into this country of foreign contract labor, and of Chinese labor, alien to our civilization and Constitution; and we demand the rigid enforcement of the existing laws against it, and favor such immediate legislation as will exclude such labor from our shores.

We declare our opposition to all combinations of capital, organized in trusts or otherwise, to control arbitrarily the condition of trade among our citizens; and we recommend to Congress, and the State Legislatures, in their respective jurisdictions, such legislation as will prevent the execution of all schemes to oppress the people by undue charges on their supplies, or by unjust rates for the transportation of their products to market. We approve the legislation by Congress to prevent alike unjust burden and unfair discriminations between the States.

We reaffirm the policy of appropriating the public lands of the United States to be homesteads for American citizens and settlers—not aliens—which the Republican party established in 1862, against the persistent opposition of the Democrats in Congress, and which has brought our great Western domain into such magnificent development. The restoration of unearned railroad land-grants to the public domain, for the use of actual settlers, which was begun under the Administration of President Arthur, should be continued. We deny that the Democratic party has ever restored one acre to the people, but declare that by the joint action of Republicans and Democrats in Congress about 28,000,000 acres of unearned lands, originally granted for the construction of railroads, have been restored to the public domain, in pursuance of the conditions in-

serted by the Republican party in the original grants. We charge the Democratic Administration with failure to execute the laws securing to settlers titles to their homesteads, and with using appropriations made for that purpose to harass innocent settlers with spies and prosecutions, under the false pretence of exposing frauds and vindicating the law.

The government by Congress of the Territories is based upon necessity, only to the end that they may become States in the Union; therefore, whenever the conditions of population, material resources, public intelligence and morality are such as to insure a stable local government therein, the people of such Territories should be permitted, as a right inherent in them, to form for themselves Constitutions and State Governments, and be admitted into the Union. Pending the preparation for Statehood, all officers thereof should be selected from the bona fide residents and citizens of the Territory wherein they are to serve. South Dakota should of right immediately be admitted as a State in the Union, under the Constitution framed and adopted by her people, and we heartily indorse the action of the Republican Senate in twice passing bills for her admission. The refusal of the Democratic House of Representatives, for partisan purposes, to favorably consider these bills is a wilful violation of the sacred American principle of local self-government, and merits the condemnation of all just men. The pending bills in the Senate to enable the people of Washington, North Dakota and Montana Territories to form Constitutions and establish State Governments should be passed without unnecessary delay. The Republican party pledges itself to do all in its power to facilitate the admission of the Territories of New-Mexico, Wyoming, Idaho and Arizona to the enjoyment of self-government as States, such of them as are now qualified, as soon as possible, and the others as soon as they may become so.

The political power of the Mormon Church in the Territories, as exercised in the past, is a menace to free institutions too dangerous to be longer suffered. Therefore, we pledge the Republican party to appropriate legislation asserting the sovereignty of the Nation in all Territories where the same is questioned, and in furtherance of that end, to place upon the statute books legislation stringent enough to divorce the political from the ecclesiastical power, and thus stamp out the attendant wickedness of polygamy.

The Republican party is in favor of the use of both gold and silver as money, and condemns the policy of the Democratic Administration in its efforts to demonetize silver.

We demand the reduction of letter postage to one cent per ounce.

In a Republic like ours, where the citizen is the sovereign and the official the servant, where no power is exercised except by the will of the people, it is important that the sovereign—the people—should possess intelligence. The free school is the promoter of that intelligence which is to preserve us as a free Nation; therefore, the State or Nation, or both combined, should support free institutions of learning sufficient to afford every child growing in the land the opportunity of a good common school education.

The first concern of all good government is the virtue and sobriety of the people, and the purity of the home. The Republican party cordially sympathizes with all wise and well-directed efforts for the promotion of temperance and morality.

We earnestly recommend that prompt action be taken by Congress in the enactment of such legislation as will best secure the rehabilitation of our American merchant marine, and we protest against the passage by Congress of a free ship bill, as calculated to work injustice to labor, by lessening the wages of those engaged in preparing materials, as well as those directly employed in our shipyards. We demand appropriations for the early rebuilding of our Navy, for the construction of post fortifications and modern ordnance, and other approved modern means of defence for the protection of our defenceless harbors and cities, for the payment of just pensions to our soldiers, for necessary works of National importance in the improvement of harbors and the channels of the internal, coastwise and foreign commerce, for the encouragement of the shipping interests of the Atlantic, Gulf, and Pacific States, as well as for the payment of the maturing public debt. This policy will give employment to our labor, activity to our various industries, increase the security of our country, promote trade, open new and direct markets for our produce, and cheapen the cost of transportation. We affirm this to be far better for our country than the Democratic policy of loaning the Government's money without interest to "pet banks."

The conduct of foreign affairs by the present Administration has been distinguished by its inefficiency and its cowardice. Having withdrawn from the Senate all pending treaties effected by Republican Administrations for the removal of foreign burdens and restrictions upon our commerce and for its extension in better markets, it has neither effected nor proposed any others in their stead. Professing adherence to the Monroe Doctrine, it has seen, with idle complacency, the extension of foreign influence in Central America and of foreign trade everywhere among our neighbors. It has refused to charter, sanction or encourage any American organization for constructing the Nicaragua Canal, a work of vital importance to the maintenance of the Monroe Doctrine, and of our National influence in Central and South America, and necessary for the development of trade with our Pacific territory, with South America, and with the islands and further coasts of the Pacific Ocean.

We arraign the present Democratic Administration for its weak and unpatriotic treatment of the fisheries question and its pusillanimous surrender of the essential privileges to which our fishing vessels are entitled in Canadian ports, under the Treaty of 1818, the reciprocal maritime legislation of 1830, and the comity of nations, and which Canadian fishing vessels receive in the ports of the United States. We condemn the policy of the present Administration and the Democratic majority in Congress toward our fisheries as un-

friendly and conspicuously unpatriotic, and as tending to destroy a valuable National industry and an indispensable source of defence against a foreign enemy.

The name of American applies alike to all citizens of the Republic, and imposes upon all alike the same obligation of obedience to the laws. At the same time, that citizenship is and must be the panoply and safeguard of him who wears it, and protect him, whether high or low, rich or poor, in all his civil rights. It should and must afford him protection at home, and follow and protect him abroad, in whatever land he may be on a lawful errand.

The men who abandoned the Republican party in 1884 and continued to adhere to the Democratic party have deserted, not only the cause of honest government, of sound finance, of freedom and purity of the ballot, but especially have deserted the cause of reform in the Civil Service. We will not fail to keep our pledges because they have broken theirs, or because their candidate has broken his. We therefore repeat our declaration of 1884—to wit "The reform of the Civil Service, auspiciously begun under the Republican Administration, should be completed by the further extension of the reform system already established by law to all the grades of service to which it is applicable. The spirit and purpose of the reform should be observed in all executive appointments, and all laws at variance with the object of existing reform legislation should be repealed, to the end that the dangers to free institutions which lurk in the power of official patronage may be wisely and effectively avoided."

The gratitude of the Nation to the defenders of the Union cannot be measured by laws. The legislation of Congress should conform to the pledges made by a loyal people and be so enlarged and extended as to provide against the possibility that any man who honorably wore the Federal uniform shall become an inmate of an almshouse, or dependent upon private charity. In the presence of an overflowing Treasury it would be a public scandal to do less for those whose valorous service preserved the Government. We denounce the hostile spirit shown by President Cleveland in his numerous vetoes of measures for pension relief, and the action of the Democratic House of Representatives in refusing even a consideration of general pension legislation.

In support of the principles herewith enunciated, we invite the co-operation of patriotic men of all parties, and especially of all workingmen, whose prosperity is seriously threatened by the free-trade policy of the present Administration.

THE DEMOCRATIC—St. Louis, June 7.

The Democratic party of the United States, in National Convention assembled, renews the pledge of its fidelity to Democratic faith and reaffirms the platform adopted by its representatives in the Convention of 1884, and indorses the views expressed by President Cleveland in his last annual message to Congress as the correct interpretation of that platform upon the question of tariff reduction; and also indorses the efforts of our Democratic Representatives in Congress to secure a reduction of excessive taxation.

Chief among its principles of party faith are the maintenance of an indissoluble Union of free and indestructible States, now about to enter upon its second century of unexampled progress and renown; devotion to a plan of government regulated by a written Constitution, strictly specifying every granted power and expressly reserving to the States or people the entire ungranted residue of power; the encouragement of a jealous popular vigilance directed to all who have been chosen for brief terms to enact and execute the laws, and are charged with the duty of preserving peace, ensuring equality and establishing justice.

The Democratic party welcome an exacting scrutiny of the administration of the Executive power which four years ago was committed to its trust in the election of Grover Cleveland, President of the United States; and it challenges the most searching inquiry concerning its fidelity and devotion to the pledges which then invited the suffrages of the people.

During a most critical period of our financial affairs, resulting from overtaxation, the anomalous condition of our currency, and a public debt unmatured, it has by the adoption of a wise and conservative course, not only averted disaster, but greatly promoted the prosperity of the people.

It has reversed the improvident and unwise policy of the Republican party touching the public domain, and has reclaimed from corporations and syndicates, alien and domestic, and restored to the people, nearly one hundred millions of acres of valuable land to be sacredly held as homesteads for our citizens.

While carefully guarding the interest of the taxpayers and conforming strictly to the principles of justice and equity, it has paid out more for pensions and bounties to the soldiers and sailors of the Republic than was ever paid before during an equal period.

By intelligent management and a judicious and economical expenditure of the public money it has set on foot the reconstruction of the American Navy upon a system which forbids the recurrence of scandal and insures successful results.

It has adopted and consistently pursued a firm and prudent foreign policy preserving peace with all nations while scrupulously maintaining all the rights and interests of our Government and people at home and abroad.

The exclusion from our shores of Chinese laborers has been effectually secured under the provisions of a treaty, the operation of which has been postponed by the

action of a Republican majority in the Senate.

Honest reform in the Civil Service has been inaugurated and maintained by President Cleveland, and he has brought the public service to the highest standard of efficiency, not only by rule and precept, but by the example of his own untiring and unselfish administration of public affairs.

In every branch and department of the Government under Democratic control, the rights and welfare of all the people have been guarded and defended; every public interest has been protected, and the equality of all our citizens before the law, without regard to race or section, has been steadfastly maintained.

Upon its record thus exhibited and upon the pledge of a continuance to the people of the benefits of good government, the National Democracy invokes a renewal of popular trust by the re-election of a Chief Magistrate who has been faithful, able and prudent.

They invoke an addition to that trust by the transfer also to the Democracy of the entire legislative power.

The Republican party controlling the Senate and resisting in both Houses of Congress a reformation of unjust and unequal tax laws, which have outlasted the necessities of war and are now undermining the abundance of a long peace, deny to the people equality before the law and the fairness and the justice which are their right.

Thus the cry of American labor for a better share in the rewards of industry is stifled with false pretences; enterprise is fettered and bound down to home markets; capital is discouraged with doubt, and unequal, unjust laws can neither be properly amended nor repealed.

The Democratic party will continue, with all the power confided to it, the struggle to reform these laws in accordance with the pledges of its last platform indorsed at the ballot-box by the suffrages of the people.

Of all the industrious freemen of our land, an immense majority, including every tiller of the soil, gain no advantage from excessive tax laws; but the price of nearly everything they buy is increased by the favoritism of an unequal system of tax legislation.

All unnecessary taxation is unjust taxation.

It is repugnant to the creed of Democracy, that by such taxation the cost of the necessaries of life should be unjustifiably increased to all our people.

Judged by Democratic principles, the interests of the people are betrayed, when, by unnecessary taxation, trusts and combinations are permitted and fostered, which, while unduly enriching the few that combine, rob the body of our citizens by depriving them of the benefits of natural competition. Every Democratic rule of governmental action is violated when through unnecessary taxation a vast sum of money, far beyond the needs of an economical administration, is drawn from the people and the channels of trade, and accumulated as a demoralizing surplus in the National Treasury.

The money now lying idle in the Federal Treasury resulting from superfluous taxation amounts to more than $125,000,000, and the surplus collected is reaching the sum of more than $60,000,000 annually.

Debauched by this immense temptation the remedy of the Republican party is to meet and exhaust by extravagant appropriations and expenditures, whether constitutional or not, the accumulations of extravagant taxation.

The Democratic remedy is to enforce frugality in public expense and abolish needless taxation.

Our established domestic industries and enterprises should not, and need not, be endangered by a reduction and correction of the burdens of taxation. On the contrary, a fair and careful revision of our tax laws, with due allowance for the difference between the wages of American and foreign labor, must promote and encourage every branch of such industries and enterprises by giving them assurance of an extended market and steady and continuous operation.

In the interest of American labor, which should in no event be neglected, the revision of our tax laws contemplated by the Democratic party would promote the advantage of such labor by cheapening the cost of the necessaries of life in the home of every working man, and at the same time securing to him steady and remunerative employment.

Upon this great issue of tariff reform, so closely concerning every phase of our national life, and upon every question involved in the problem of good government, the Democratic party submits its principles and professions to the intelligent suffrages of the American people.

The following additional resolutions were adopted in Convention:

Resolved, That this Convention hereby indorses and recommends the early passage of the bill for the reduction of the revenue now pending in the House of Representatives.

Resolved, That a just and liberal policy should be pursued in reference to the Territories; that the right of self-government is inherent in the people and guaranteed under the Constitution; that the Territories of Washington, Dakota, Montana and New-Mexico are, by virtue of population and development, entitled to admission into the Union as States, and we unqualifiedly condemn the course of the Republican party in refusing Statehood and self-government to their people.

Resolved, That we express our cordial sympathy with the struggling people of all nations in their efforts to secure for themselves the inestimable blessing of self-government and civil and religious liberty, and we especially declare our sympathy with the efforts of those noble patriots who, led by Gladstone and Parnell, have conducted their grand and peaceful contest for Home Rule in Ireland.

THE UNION LABOR—Cincinnati, May 16.

[ALSON J. STREETER, Illinois, President; CHARLES E. CUNNINGHAM, Arkansas, Vice-President.]

The platform embodies the following among other points:

Opposition to land monopoly in every form. Forfeiture of unearned land grants. Limitation of land ownership. Homestead exemption to a limited extent from execution or taxation. Owning by the people of the means of communication and transportation. The circulating medium to be issued directly to the people and loaned upon land security at a low rate of interest. Postal savings banks. Free coinage of silver. Application of all money in the United States Treasury to the payment of the bonded debt. No further issue of interest-bearing bonds, either by the National Government, or by States, Territories or municipalities. Arbitration to take the place of strikes and other injurious methods of settling labor disputes. Service pension to every honorably discharged soldier and sailor of the United States. Graduated income tax. United States Senators elective by direct vote of the people. Absolute exclusion of Chinese. The right to vote inherent in citizenship irrespective of sex and properly within the province of State legislation.

THE PROHIBITION—Indianapolis, May 31.

[CLINTON B. FISK, N. J., President; JOHN A. BROOKS, Missouri, Vice-President.]

The platform contains these among other points:

Manufacture, importation, exportation, transportation and sale of alcoholic beverages to be made public crimes. Must be secured through amendments of National and State constitutions. Any form of license, taxation or regulation of the liquor traffic contrary to good government. Immediate abolition of the internal revenue system. Revenue should be raised by import duties and equitable assessment on property and legitimate business. Burdens of taxation should be removed from foods, clothing and other comforts and necessaries of life and imposed on such other articles of import as will give protection to the manufacturing employer and the producing laborers against the competition of the world. Civil service appointments based on moral, intellectual and physical qualifications. Right of suffrage rests on no mere circumstance of race, color, sex or nationality, but should rest on such educational basis as the people of the various States may deem wise. Abolition of polygamy. Uniform laws governing marriage and divorce. Preservation and defence of the Sabbath. Arbitration as the method of settling National differences.

* Withdrawn.

The explanation of the fact that the Legislature of 1888 chose two U. S. Senators is that under the Constitution of the State of Louisiana the term of the Legislature is for four years, though its sessions are biennial. The late session was the first session of the Legislature last chosen prior to the expiration of the terms of the two Senators, and under the act of Congress it was competent for it to choose the two.

The Secretary of State has failed to furnish any figures on Representatives in Congress or any other office; but Governor Wilson has, before putting this page to press, issued certificates of election to the Democratic candidates in the Ist and IId Districts, and has issued no certificates for the other Districts, alleging that he could not legally do so. On the face of the returns as made by the local boards, the Republican candidates have a majority in the IIId and IVth Districts.

Fourteen Constitutional Amendments were approved, one rejected, and a revision of the Constitution was negatived—1,644 to 2,740.

POLITICAL MISCELLANY.

ARKANSAS—The vote cast on License, September, 1888, was: For, 94,344; Against, 68,035. On calling a Constitutional Convention, the yeas were 41,952, nays, 93,686.

ILLINOIS—Under the new High License Act, the number of saloons has fallen from 13,000 to less than 9,000.

IOWA—The House of Representatives, by 66 to 25, adopted a Constitutional Amendment conferring upon women the right of suffrage in all State elections.

MASSACHUSETTS—A joint resolution for the submission to popular vote of a Prohibitory Amendment passed both houses (the Senate 23 to 8, the House 160 to 70), and will come before the Legislature in 1889. The minimum liquor license fee has been fixed at $1,000, and ale and beer license at $250. Laws also passed to restrict saloons to one for every 1,000 population; to forbid license for any dwelling house or place having interior communication with the dwelling or family of a tenement; to prohibit the sale of liquor on Thanksgiving Day, Christmas Day, Decoration Day, and all election days; and to declare that all beverages containing 1 per cent of alcohol are intoxicating within the meaning of Massachusetts law. A bill granting license suffrage to women passed the House, 118 to 85, but was defeated in the Senate, 13 to 14. The House subsequently defeated the general Woman Suffrage bill, 36 to 107. The House defeated the resolution for the biennial election of State officers. At the school election in Boston in December, about 17,000 women voted. The "Australian" system of voting has been adopted. "License" carried in nineteen of the twenty-five cities of the State in December, 1888, as against fifteen in 1887. The total "license" vote rose from 77,001 to 89,655; the "anti-license" vote fell from 65,278 to 58,443.

MARYLAND—A Prohibitory Amendment passed the Senate, with but six negative votes, but was reported unfavorably by the House Committee, and no action was taken on the report.

MISSISSIPPI — A Constitutional Amendment limiting the Governor's term to four years, without the right of succession, passed the Legislature. The Governor vetoed, in January, a call for a Constitutional Convention.

MICHIGAN—The recent "Local Option" law was, in May, declared, by the Supreme Court, unconstitutional, on the ground that it embraces more than one object, which its title does not indicate.

POLITICAL MISCELLANY.

(*Continued from Page* 96.)

MISSOURI—Under the Local Option and High License act the saloons have fallen from 3,601 to 2,880.

NEW-JERSEY—A County Option and High License bill passed both houses, was vetoed by Governor Green, and repassed: House, 34 to 24; Senate, 13 to 8. The Court of Errors and Appeals, by 8 to 7, maintained the constitutionality of the Local Option clauses and unanimously the High License clauses of the act. The act provides that the question of license shall be submitted to the voters in each county upon the petition of one-tenth of the voters, and that, after a special election, if license shall win, the fees shall be fixed at about twice the present figures in cities, towns and townships. The new Election law requires the closing of the polls at sunset, and personal registration in Newark and Jersey City.

NEW-YORK—A High License bill passed the Assembly, 66 to 61, the Senate, 17 to 15; was vetoed by Governor Hill.

A County "Local Option" bill was lost in the Assembly, 61 to 53. A bill to submit to popular vote a Constitutional Amendment that no person shall manufacture for sale, or sell, or keep for sale as a beverage, any intoxicating liquors, whether fermented or distilled, and that the Legislature shall by law prescribe regulations and penalties, passed the Assembly April 12, 1888—yeas, 68; nays, 51; affirmative all Republicans but one, negative all Democrats but one. It passed the Senate—yeas, 18 (Republican); nays, 10 (Democrats). This amendment must pass the Senate to be chosen in 1889, and the Assembly to be then chosen, before being submitted to popular vote. The sale of intoxicating liquors at county fairs is prohibited. A bill "to secure more fully the independence of electors and the secrecy of the ballot" was vetoed by Governor Hill. In the Assembly, March 22, a bill to permit liquor-saloons to be open Sunday afternoons received 37 votes, with 77 against it.

OHIO—The Dow Liquor law was amended, increasing the yearly tax on saloons to $250. Heretofore the tax has been $100 for beer and wine, and $200 for the sale of all liquors.

PENNSYLVANIA—Under the High License Act, applications for license have fallen from 14,553 in 1887, to 11,590 in 1888. Of the latter, only 7,724 were granted, yielding a revenue of $1,835,963. In nine counties no licenses were granted.

VERMONT—November 15, the Woman Suffrage bill was defeated in the House—37 to 192.

ARMS AND LEGS.

WITH RUBBER HANDS AND FEET.
NEW PATENTS.

The rubber hand and foot gives the most natural appearance, the greatest durability and comfort of all artificial limbs.

The engraving is from an instantaneous photograph of a man ascending a ladder. He has a pair of Marks' legs, substituting his natural ones, which were crushed by a railroad accident and subsequently amputated. With his rubber feet he is able to ascend a ladder, walk and mingle with persons without betraying his loss.

With complicated ankle joints an undertaking of this kind would be at his peril, but with the rubber feet he can venture upon all sorts of operations with safety.

A treatise of 400 pages, with 190 illustrations and 1,000 testimonials, sent free; also a copyright formula by which limbs can be made, and sent to all parts of the world with GUARANTEED SUCCESS without requiring the presence of the wearer. A. A. MARKS, 701 Broadway, New-York City.

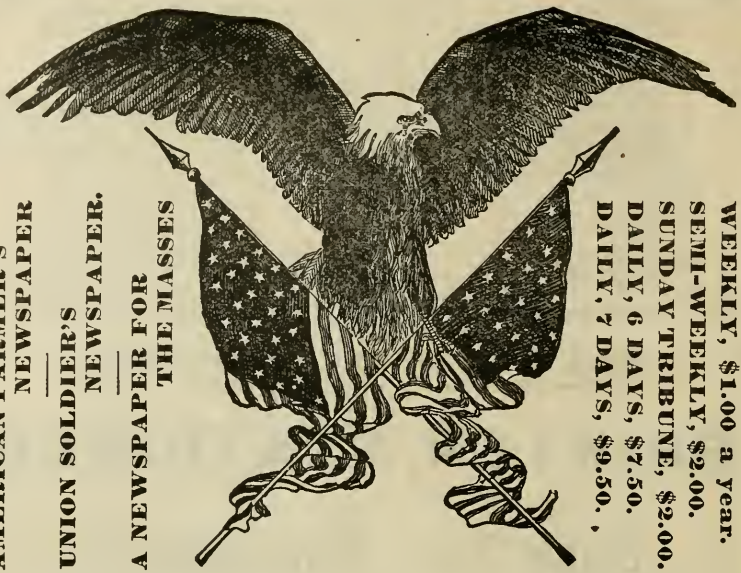
UNION SOLDIER'S NEWSPAPER.

A NEWSPAPER FOR THE MASSES



WEEKLY, $1.00 a year.
SEMI-WEEKLY, $2.00.
SUNDAY TRIBUNE, $2.00.
DAILY, 6 DAYS, $7.50.
DAILY, 7 DAYS, $9.50.

THE NEW YORK TRIBUNE believes thoroughly in making agriculture profitable (it demands protection to agriculture, and devotes two pages a week to a masterly exposition of agricultural matters), but also in making farm life and the home sweet and attractive. It believes "in a little nonsense, now and then," in sports and pastimes, in grange meetings, and everything else which develops and encourages the social life of the country towns. It will in the future, more than in the past, pay a great deal of attention to the lighter and more amusing side of life, as well as continue its discussions of matters of serious moment. It will print the news of the granges.

THE TRIBUNE regards the use of alcoholic stimulants as the greatest curse that can invade the happiness of any home and sap the nobility of any human character. This paper will always labor for total abstinence on the part of every individual, for abolition by the community where abolition is possible, and for rigid restriction where abolition is not possible.

THE TRIBUNE leads the country in presenting the arguments for a Service Pension for Union volunteers. To awaken the Nation to a sense of shame at its neglect of the men who saved the Union, at the inequality and deficiencies of the pension and bounty laws, and the propriety of a Service Pension, has been the loyal work of THE TRIBUNE for the past two years. Every man who wore the blue should consider it a duty to honor THE TRIBUNE with his subscription for a year. Upon its G. A. R. page, which is published every week, will be set forth the latest phases of the pension question, and in addition thereto we shall aim to give the important news of the G. A. R.

THE TRIBUNE has all the news and complete market reports, and is pre-eminently the paper of those who love what is sweet, high and noble in human life.

Send for sample copies (which are free), and read THE TRIBUNE at least during the first year of Gen. Harrison's patriotic administration.

PREMIUMS: Many are offered to subscribers. Send for a descriptive circular.

SOMETHING NEW IN TRIBUNE PUBLICATIONS.

Every year THE TRIBUNE prints a Register and Compendium of Political Information under the title of an "Almanac"; an Index; and several bound "Extras." It is proposed now to systematize the publication of these extras and to issue them as a Library of Tribune Extras, regularly, once a month, 12 numbers per year. The "Almanac" is issued with new, valuable and extensive additions to the contents. The other numbers will be made up with pages of about monthly magazine size. There will be one or two numbers per year devoted to the latest ideas in "knitting and crochet." Several will contain complete novels. Others will be made up of entertaining matter of special and permanent value relating to Science, Society, Literature, Politics, etc. The topic of each number will be announced in the various editions of the TRIBUNE. Single copies, 25 cents. Price, per year, for the 12 numbers, $2.

THE TRIBUNE,

NEW-YORK.

THE NEW-YORK TRIBUNE

HAS PUBLISHED A

"BOOK OF OPEN-AIR SPORTS"

for the entertainment and guidance of all who love the woods and waters of America and open-air pastimes and exercises. It is the only really authoritative volume, into which are gathered the instructions for perfection in all the different competitions of skill and strength in vogue among American young men and women. THE TRIBUNE believes not only in the tough and enduring fibre, the buoyancy of spirits and the personal beauty which wholesome sports bring to men and women, but in encouraging a revival of the old spirit of rollicking fun and exciting competition among our country population. Its "Book of Open-Air Sports," giving the rules for success and safety, is the corner-stone and starting point of its movement in this direction.

The book is a large octavo, 500 pages, with a large number of explanatory illustrations, handsome cloth covers. All the articles are from the pens of experts.

THE CONTENTS ARE:

1. "Why We want to be Strong," by William Blaikie, lecturer and athlete; a general discussion of the advantages of exercise.
2. "Archery, Old and New," by Maurice Thompson, the champion archer and writer.
3. "Horsemanship," by the Editor of the book, with contributions by Captain Augur, the Cavalry Instructor at West Point Military Academy; by Frank Menzdorf, a prominent riding master in New-York City, and Edgar B. Bronson, cattle ranchman, of Texas.
4. "Games of Ball," by The Tribune reporters; an elaborate and complete article, giving all the rules for basewall, tennis, football, cricket, etc., and the record of the League and Association baseball matches.
5. "Fishing," by Yale Beach, with a full description of every variety of American game fish, and how to make rods and flies.
6. "Trapping," by Yale Beach.
7. "Amateur Photography," by James Hall, an amateur.
8. "Yachting," by Henry Hall, with contributions by Thomas Clapham and William Kirby, yacht builders, and by Lieut. Rhodes, of the U. S. Navy. This article is long and has been highly complimented by designers and lovers of sailing. A great many successful sailboats have been built from its designs. Full instructions are given how to design, build and sail cat-boats, sharpies and sloops. This is an admirable chapter for youths of a constructive turn of mind who live near the water.
9. "Swimming," by W. S. Rossiter, prepared under the direction of Gus Sundstrom, American long-distance swimmer. Instructions are given for resuscitation of the drowned.
10. "Rowing, Boat-building and Canoeing," by Tribune reporters, with full particulars how to build a boat.
11. "Gymnastics," by Prof. George Goldie, Director of Athletics of the New-York Athletic Club, with assistance by Tribune reporters.
12. "Camping Out," by Yale Beach.
13. "Shotgun and Rifle," with contributions by Charles B. Reynolds, of "Forest and Stream," and Gen. George W. Wingate,, including a full description of all varieties of American game, and the record of the International Long Range Matches, which have given American riflemen a world-wide fame.
14. "Croquet," by W. S. Rossiter.
15. "Bicycling," by George D. Baird.
16. "Skating, Tobogganing and Ice Yachting," by W. S. Rossiter.
17. "Useful Facts," of great value, which include "Accidents"—bites, cuts, bruises, etc., and how to treat them; "Chances," and how to calculate them; "Distances," and how to measure them with the eye; "Drinking," "Eyesight and Care of the Eyes"; "Expectation of Length of Life"; "Food"; "Fording of Streams"; "Good Manners"; Smoking"; "Sound and its Velocity"; "Specific Gravity of Various Substances"; Weather," the latest science on the subject, and "Work of Men and Animals."

Price of the Book, $1.00 per Copy.

THE TRIBUNE will answer in its Semi-Weekly and Weekly editions all questions relating to Sports.
